

TRAIN-CE-FOOD

On 1st December took place the final conference of the project **TRAIN-CE-FOOD (SI2.823699)** in Maribor, Slovenia.

The conference was held in person and online. Most of the partners attended in person, while the rest of the participants attended via Zoom. The conference started with the presentation of project results by partners, then it continued as follows:

- Presentation of the Foodsharing Network Austria
- Presentation of the Permaculture Garden
- Presentation of baking with yeast
- Presentation of chef David Vračko
- Round table on the circular economy and food and how to include in the school curriculum

This successful conference was closed with an evaluation and exchange of views about the next actions within the framework of the project Train-CE-Food.

TRAIN-CE-FOOD objective is acquiring innovative specialized competences for young people, by empowering them to make use of entrepreneurship and cooperative skillsets and mindsets, which will enable them to create much more efficient cooperative solutions and business models in the field of CE and food supply chains via open online learning, face-to-face workshops, and in-depth remote coaching.
